

DECLARATION

I James C. Humphries of 208 Haight Street, Menlo Park California 94025
first being duly warned and under penalties of perjury declare as follows with
respect to the pending application 09/272,935 filed on March 20,1999 for an
invention then titled, " An Automatic Optimizing Pump and Sensor System"

Due to my limited financial resources and other circumstances I have been
prosecuting this application pro se without the benefit of the counsel. Consequently
there are statements in the prosecution history that were then made "On Belief"
but I later discovered to be inaccurate due to my lack of understanding of the law.

Accordingly I request that any conflict be resolved in favor of the
prosecution history developed after obtaining counsel.

Further Declarant saith not.

James. C. Humphries
